SERVICE

Every customer has an individual contact for all their requests. With our broad service spectrum, our experts are available to advise you before, during and after your purchase. From residential to commercial projects – the Krannich Team can solve almost any problem.

AVAILABILITY

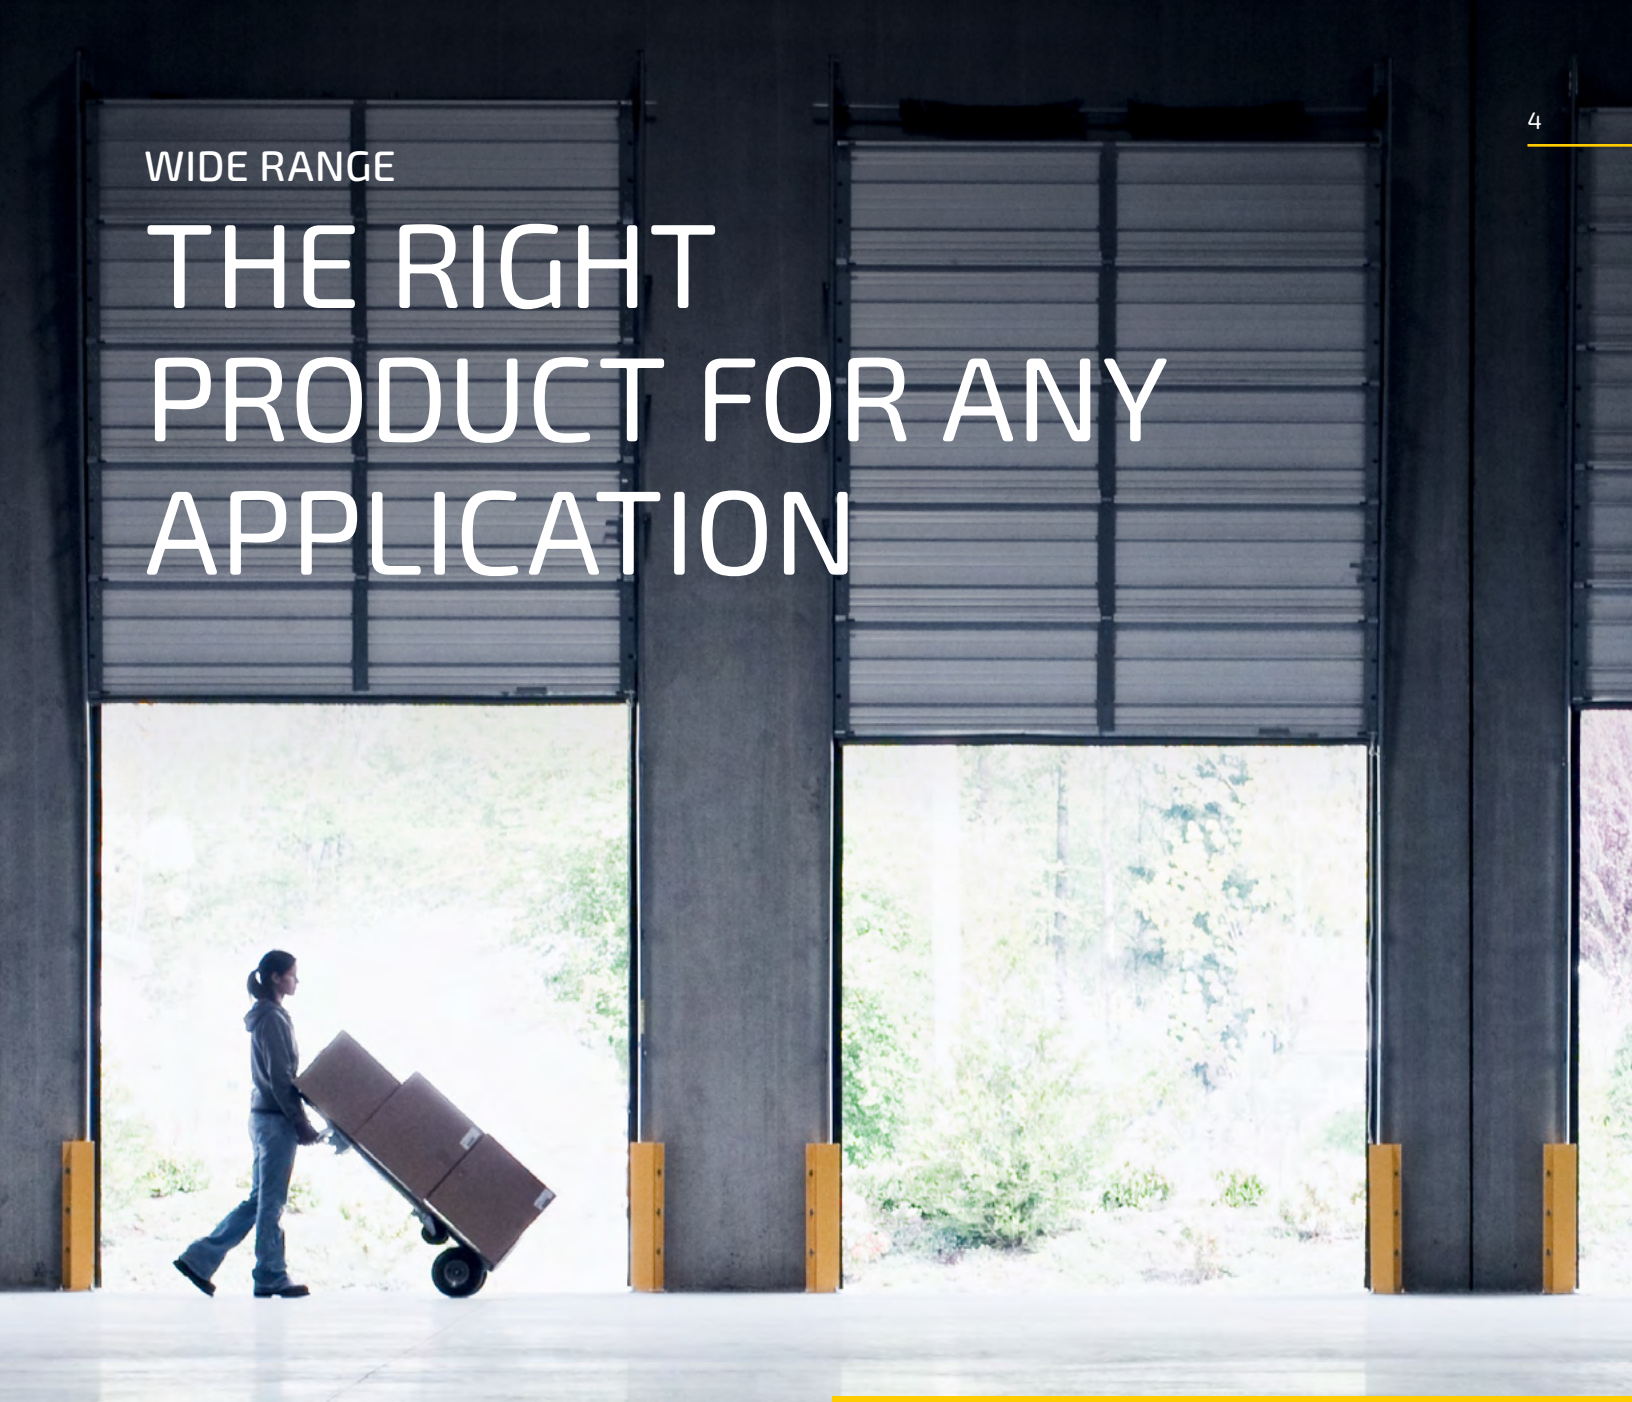
Our portfolio comprises over 5,500 articles kept in stock by us on all five continents. The experts in our distribution ensure an unbroken supply chain from the manufacturer to the construction site, thereby guaranteeing maximum availability and reliable delivery.

AFTER-SALES

Of course, things can go wrong from time to time. It is then important to find a good solution quickly. We then act as an interface to the manufacturer, the shipping company and Krannich's internal departments. The main task is that the construction project stays on schedule.

WIDE RANGE

THE RIGHT PRODUCT FOR ANY APPLICATION



Quality of product selection is of great importance to us. That means you can find not only top products but also high-quality goods above and beyond the entire spectrum.

The Krannich portfolio comprises of solar modules, mounting systems, inverters, and storage solutions for residential households and commercial businesses. As well as the accessories and latest selection of exclusive products for e-mobility to complete any project.

APsystems
ALTENERGY POWER

APsystems was founded in Silicon Valley in 2009 and is now a global leader in advanced solar microinverter technology. Their microinverters are grid-tied and equipped with intelligent networking and monitoring systems to ensure maximum efficiency, making PV arrays more powerful, smart, bankable, cost effective and safe.

EcoFasten
For Installers. By Installers.

The founder of EcoFasten began his career as a roof installer. In 2007 he decided to apply the expertise and technical skills he learned through his hands-on experience to develop an innovative line of solar roof mounting systems and solutions.

RAIL-FREE SOLUTION

ENPHASE.

Enphase Energy is a NASDAQ-listed energy technology company headquartered in Fremont, California. Enphase designs and manufactures software-driven home energy solutions that span solar generation, home energy storage and web-based monitoring and control. Enphase Energy Solution brings you solar, storage, and powerful monitoring software, all from one company. These microinverters are designed to operate independently to generate the most energy possible, without a single point of failure.

EZ SOLAR

EZ SOLAR is a trendsetting solar products company. They are a business made up of innovators and forward-thinkers, with the drive and wherewithal to constantly update and improve solar with innovating products that are high-quality, installer friendly and cost effective. They combine their construction and manufacturing backgrounds to bring common sense products to the solar market.

FORTRESS POWER
Secure your energy

Fortress Power's mission is to provide compact, user-friendly, and affordable energy storage solutions using the latest technology for all homes and businesses. Fortress Power provides different size models for energy storage projects which can be easily integrated in new and existing PV installation systems.

QuickBOLT
World's First UL Certified Microflashing®

QuickBOLT is a division of Quickscrews International Corporation. QuickBOLT has a wide range of innovative solar mounts for residential roofs. They can produce custom products and are continually working with installers to deliver the exact products needed for any type of roof.

RESIDENTIAL SOLUTION

Roof Tech
The Standard for Waterproof Flexible Flashing Since 1994.

Roof Tech Inc. has been engineering solar mounting solutions since 1994 with flawless performance – over one million rooftop installations all over Japan and North America. They offer a 25-year warranty on all of their products from the installation date. Their AlphaSeal™ Technology is fit for any residential roof for PV mounting on asphalt, membrane, or metal roofing.

RESIDENTIAL SOLUTION

With more than 35 years and 75 gigawatts of knowledge and experience, SMA offers a complete portfolio of award-winning, reliable products that provide optimal, innovative solutions for residential, commercial and industrial applications.

SnapNrack™

SnapNrack produces innovative residential solar mounting solutions engineered to optimize material use and labor resources and improve overall installation quality and safety. Their residential solar mounting solutions are designed for composition shingle, tile, metal and flat membrane roof types, as well as ground systems.

RESIDENTIAL SOLUTION

SolarEdge is a technology and global market leader in the field of power electronics at module level. More than 15 million performance optimizers and more than 633,000 inverters have been delivered to over 30 countries in the last 10 years since the company was founded.

SUNGROW
Clean power for all

Sungrow Power Supply Co., LTD is the world's leading inverter specialist and the only brand receiving the highest recommendation in the area of financeability by the Bloomberg Institute for the fourth year in a row in 2022. As the largest inverter manufacturer in the world, Sungrow has installed more than 340 GW of solar energy to date (as of December 2022).
Founded in 1997 by Prof. Cao Renxian, the green tech company priorities are continuous innovation and the highest quality. With more than 3,100 R&D employees, Sungrow provides the largest R&D team in the industry. Sungrow's broad product portfolio offers the right device for every application – from photovoltaic inverters and storage solutions for utility, commercial and residential to world-leading systems for floating installations. With more than 25 years of clean energy experience, Sungrow offers its customers maximum safety and expertise in over 150 countries worldwide.
